

DIGITAL INVENTIONS AT A GLANCE

Connecting people, mission, knowledge & data

Meet your Mission Assets!

Your organisation is building Mission Assets every day.

Data and Evidence

- MERL data
- Evaluations
- Programme results

Explicit Knowledge

- Documented learning
- Knowledge products
- Tools & methodologies

Tacit Knowledge

- Relationships
- Institutional memory
- Lessons held by people and teams

How we work with you

We help mission-driven organisations capture, connect and activate the data, knowledge and experience that drive their mission.

Impact Events & Convenings

Digital and knowledge-led support for learning events, programme launches, grantee convenings and milestone events, from participant engagement through to knowledge capture and post-event learning products.

Purpose-driven Projects

Defined assignments such as Theory of Change and MERL frameworks, evaluations, research, learning reviews, knowledge products and fit-for-purpose digital tools.

Mission Asset Management

Ongoing retainer-based support to strengthen your organisation's data, knowledge, systems and learning against agreed objectives and results.

Proof in Practice

VVOB / Department of Basic Education

Digital platform, live knowledge capture and report synthesis for the inaugural DBE Teacher Development Colloquium 2026.

Global Teachers Institute (GTI)

Defined project to revise Theory of Change and MERL frameworks, and develop a customised M&E digital platform (FLIP).

More Than A Teacher (MTAT)

Ongoing MERL retainer across flagship programmes, supported by a customised FLIP digital platform recruitment, learning events, intern activity and mentor feedback.

Put your Mission Assets to work

Planning a convening, have a defined assignment or looking for ongoing support?
